

POSITION VACANT

Apprentice Diesel Mechanic – 1st Year

Location- Smeaton Grange, Sydney NSW

Employer- YG Lifting Solutions

Website- liftingsolutions.com.au

YG Lifting Solutions is a Telehandler and EWP Sales and service company with a wealth of experience in the industry. We have been involved with and continue to supply EWPs & Telehandlers to major prestigious projects around Australia. We are in the process of expanding various aspects of our business which includes motivated 1st Year Apprentice Diesel Mechanic to join our team at our Smeaton Grange workshop.

About the Role

This is a fantastic opportunity to start your career in the diesel mechanical trade while gaining hands-on experience working on lifting and access equipment in a supportive workshop environment.

You will work alongside experienced technicians to learn all aspects of diesel mechanical servicing and repairs.

Key Responsibilities

- Assist with servicing, maintenance, and repairs on diesel-powered lifting equipment
- Learn to diagnose mechanical and hydraulic faults
- Support senior mechanics with breakdown repairs
- Maintain a clean and safe workshop environment
- Follow all workplace health and safety procedures
- Complete TAFE requirements and on-the-job training

About You

- Genuine interest in heavy diesel mechanics
- Strong mechanical aptitude
- Reliable, punctual, and hardworking
- Willingness to learn and take direction

What We Offer

- Full-time apprenticeship position
- On-the-job training with experienced technicians
- Support through TAFE studies
- Opportunity to grow within a developing company
- Friendly and supportive team environment

Apply Now

If you are eager to begin your career in the diesel mechanical trade and want to be part of a company that values teamwork and development, we would love to hear from you.

Apply by sending your resume and brief cover letter outlining your interest in the role to: admin@liftingsolutions.com.au
